About Del Norte County Schools

The Del Norte Unified School District is a nationally recognized school district that passionately teaches 4000 students across 11 schools. Located in Del Norte, the most northwestern county in California, we enjoy some of the most beautiful forests, rivers, and beaches in the world.

The District consists of 11 schools: eight elementary schools, a middle school, and two high schools. Del Norte Unified School District has some of the highest graduation rates of all schools in California. We have been nationally recognized by the United State Department of Agriculture for our exemplary Nutrition Services department that sources local and healthy foods for student meals. The District is committed to providing top of the line education, and this is shown by the accomplishments made by our students, staff, and leadership every year. The District's teaching staff is highly capable, passionate, and professional. With various professional development opportunities, conferences, staff development workshops, and collaboration time, the Del Norte Unified staff acquire an exceptional amount of teaching experience.

As one of the most innovative school districts in the country, Del Norte Unified School District implements creative and unique solutions for challenges faced by few other districts.

The Problem

Del Norte County schools found themselves in need of an upgrade to their existing security camera systems. The outdated systems left the school district more vulnerable to potential threats than they needed to be, leaving them in search of a reliable partner that could help them modernize their security systems.

Fortunately, the district found just what they needed when they contacted SCW.

The Project

The scope was to replace the existing security camera systems within 12 different schools.

- 513 Cameras (Dome, PTZ)
- 12, 4k NVR's
- Backup Hard Drives
- Box Mounts
- And more

The installation of state-of-the-art security cameras, NVRs and other security hardware at 12 schools within the district was accomplished seamlessly and efficiently by SCW. Hundreds of pieces of modern security equipment were installed in a matter of weeks, drastically increasing the safety of students and staff within the school district.

SCW is proud to have been a part of helping Del Norte Schools modernize their Security to help protect students, staff and faculty.

The Result

SCW provided a comprehensive solution to the county's security needs. Customized plans were designed for 12 schools within the county, utilizing a combination of camera types and equipment to maximize visibility and improve safety.

High-definition cameras delivered crystal clear images, giving school administrators and safety personnel confidence that any potential threat could be identified quickly and effectively.

In addition to top of the line camera hardware, SCW also provided a secure online platform where footage from all cameras can be viewed remotely from anywhere in the world—allowing for 24/7 monitoring of every campus.

WHY SCW?

We understand the unique needs of an educational institution.

No longer can educational institutions ignore security issues. An incident can mean negative publicity, decreased enrollment, and expensive lawsuits. Using SCW's high definition security cameras, access control systems, and software can reduce these security incidents, reduce truancy, vandalism, and bullying, enable faster response times, and harden your cyber security posture.

Built to last

SCW sells only commercial-grade equipment. That commitment to quality coincided with Del Norte County Schools' primary concern for their old security camera system.

Their firsthand dealings with inoperable cameras and unusable video footage from the low-performing cameras led county officials to seek upgraded equipment to avoid repeated issues.

Service After the Sale

The right equipment combined with free, US-based, lifetime tech support, made SCW the apparent solution for Del Norte County Public Schools' security needs.

Over 4,000 Five-Star reviews and a Birdeye score of 4.9 says more than we can about the standards of our business practices at SCW. All of the cameras installed for the project included SCW's standard 3-year warranty--the best in the industry. That standard warranty can be extended to five years of coverage.

Scalability

The systems available from SCW are designed not only to meet the client's immediate needs but to also be easily duplicated when population growth leads to added campuses.

School upgrades and future expansions will present no problems to incorporate within the SCW framework Del Norte Schools now have in place.

Single Source Purchase

Streamlined buying from a single-source provider made purchasing simple. SCW staff specializes in security, specifically video surveillance.

We offered our customers every item necessary for a complete, professional IP camera security system, right down to the cable, and the wire crimping tools
