

VILLAGE OF SCHAUMBURG

PROGRESS THROUGH THOUGHTFUL PLANNING

Hotel Security and Safety Ordinance

Informational Session

Safe Hotel Initiative

Video Standards

- *Ability to see faces at entrance/exit locations and front desk*
- *High resolution for long hallways, outdoor areas*
- *Ability to see license plates at exterior parking entrances (Village ALPR system preferred)*
- *Low light capabilities for exterior cameras and dark interior areas*
- *Cloud or on-premises recording is acceptable as long as access is possible*
- *Connection to the Schaumburg PD Real-Time Information Center is recommended but not required. The connection can be made to most video management systems but may require shared connection costs. Connections can be made to Avigilon VMS for a cloud based cost-free connection or Genetec with a low cost licensed connection.*

Video Standards

- *Must be digital (IP based) not analog*
- *1080P Minimum*
- *15FPS Minimum*
- *Full Color (Black and White mode allowed for low light cameras during darkness)*
- *MP4 or other common video format with a common high-quality CODEC such as H.264*
- *Time / Date stamp on video*
